AERB/RSD/PMS/2019/ 665

April 30, 2019

May 02

As noted from excessive exposure cases reported by your laboratory, many radiation facilities are not registered in AERB eLORA system but availing Personnel Monitoring Services (TLD Badge). Therefore, you are hereby advised not to provide Personnel Monitoring Services (PMS) to any new radiation facility, if it does not furnish eLORA institute registration number along with evidence.

Please find enclosed herewith a letter, which may be circulated to all radiation facilities availing PMS from you to collect their eLORA registration number. You may circulate it via email and/or along with TLD cards, so that the process can be completed within six month period.

Institute registration in eLORA system can be verified by following means:

1. *By searching the institution name after logging into your eLORA account*
2. *Copy of acknowledgement of eLORA institute registration number received by Employer through email*
3. *Copy of any letter, generated through eLORA, which contains the institute number in the reference. Further, the letters can be verified for its authenticity from the eLORA portal.*

You may also include provision of eLORA institute registration number in the "Personal Data Form" for availing new PMS by the institute.

AERB/RSD/PMS/2019/ 664

April 30, 2019
May 02

TO WHOMSOEVER IT MAY CONCERN

From the reported excessive exposure cases, it is evident that there are many radiation facilities availing Personnel Monitoring Services (TLD Badge), but not registered in AERB eLORA system. Hence, in future, no Personnel Monitoring Services (PMS) be provided to any radiation facility, if not registered in eLORA system.

All existing radiation facilities, availing PMS, are hereby requested to **provide eLORA registration number to the laboratory providing PMS**. If the institute is not yet registered in eLORA, it can register in eLORA within six month period & provide the institute registration number to PMS laboratory, failing to which, data of such institutions will be collected by AERB from PMS laboratories for further necessary action.
